```java
package Exercise2;

public class Student extends Human {
    private String major;

    public Student String name, int age, String major) {
        super(name,age);
        this.major = major;
    }

    public String getMajor() {
        return major;
    }

    public void setMajor(String major) {
        this.major = major;
    }

    public String toString() {
        return String.format(super.toString() +", 전공 : " + major);
    }
}
```
